(Please read)

The mounting problem of waste disposal will continue until government is able to provide adequate facilities. There are no clear solutions at present. It is important therefore that we be aware of the need to do our share to minimize waste and facilitate collection.

Every effort is being made to keep our Village clean. Please discuss this problem with your household help and implement the following:

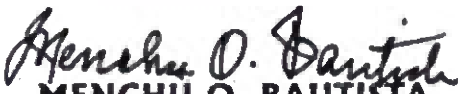

1. Segregate wet and dry garbage - one bag for kitchen waste; another for recyclables;
2. Bring garbage out between 7:00 to 8:00 p.m.; garbage bins, cans, etc. should be removed from the sidewalk and brought in no later than 8:00 a.m.;
3. Instruct your gardeners to cut branches, prunings, leaves, etc. into manageable sizes and tie into bunches so that our collectors can lift them.

Your full attention and cooperation will be much appreciated.

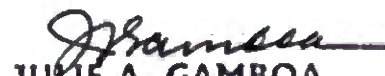

ISABEL CARO WILSON
