**DVA Circular No. 2003-01**

**January 6, 2003**

**FREE SMOKE EMISSION TEST**

The implementation of the Clean Air Act was effective 01 January 2003. One provision of this Act is that vehicles will only be registered with the Land Transportation Office (LTO) if they pass the required smoke emission test. If your vehicle is not properly maintained chances are it will fail the test.

A resident of our Village, Mr. Domingo Tan is offering the following:

- A **FREE** smoke test for diesel powered vehicles, with no obligations whatsoever.
- For those vehicles that will **FAIL** the smoke test, they offer a device – the HYDRODRIVE electronic catalytic converter, a proven smoke buster and a fuel saver rolled into one.
- Price of the device can easily be recouped by the prospective buyers in less than a year's time. With fuel savings of 5.2 to 6.0% and smoke reduction of 60 to 90% as per private study and test conducted by the fleet management of Pepsi-Cola Products Phils.

Please note that the Association is passing on this offer because some residents may wish to have the test done. Mr. Domingo Tan will schedule testing on **15 January 2003, 9:00 AM – 5:00 PM at the corner of Amorsolo St. and Tamarind Road.**
