IMPROPER WASTE SEGREGATION

We observed that there are some residents who do not comply with the Village waste segregation system. Reports also reached us about DEAD ANIMALS (cats, dogs and rats) being mixed with garden or yard waste. Our garbage contractor operates an Ecological and Composting Center where kitchen and garden waste are processed into compost materials. Their permit may be revoked by the Department of Environment and Natural Resources (DENR) if dead animals are dumped in the center.

We would like to seek your cooperation in this regard by strictly complying with our waste segregation system. DEAD ANIMALS ARE EITHER BURIED IN YOUR BACKYARD OR INCLUDED IN THE RESIDUAL WASTE.

Attached is a leaflet showing the DVA Garbage Collection Schedule for you and your household staff information, guidance and compliance.

Thank you.
