20 December 2005

Reminder re "PAJERO LADY"

Recent reports indicate that the so-called "PAJERO LADY" [whose picture appears below] and her cohorts have struck again victimizing residents of exclusive subdivisions.

Their modus operandi usually is forcing their way into residences and taking only money, jewelry and any item of value that can be readily carted away and hidden but only after taking steps to make sure that nobody is present in the target residence. She and her group have been known to ring the doorbell or throw stones at the gates to establish if somebody is home.

The "PAJERO LADY" goes by several aliases – Malou de Guzman, Maria Luisa de Guzman, Lourdes Santiago, Rowena Crisostomo, and Josephine Roque Garcia. Information gathered also indicates that she and her group use high-end vehicles that may have fake inter-village stickers.

We therefore enjoin all residents to take appropriate security measures; advise household staff regarding this concern; and immediately report any suspicious individuals, vehicles and any other observation to the Security Office or any village security personnel.
