D.V.A. CIRCULAR NO. 2005-42

21 December 2005

ID REVALIDATION & ANNUAL SYSTEM CHECK

With regard to the new DVA identification system, please be advised that there is a need to recall and revalidate all IDs issued from August 1st up to December 5, 2005.

As part of the system's verification to ensure compliance to DVA security standards, there is a need to crosscheck IDs issued vis-à-vis the computer's database.

To facilitate the recall and revalidation, IDs can be returned to the Security Office during office hours. Revalidated IDs will be returned within one (1) day from receipt.

In view of the revalidation process, please be advised that the Security Office will temporarily suspend encoding and issuance of new IDs from December 27, 2005 to January 2, 2006. However, the Security Office will continue accepting applications but the encoding and picture taking will be scheduled after January 2, 2006.

We wish to assure our residents and DVA Identification Card holders that the ID verification being done is to ensure the successful implementation of DVA's computerized identification system.

We wish to extend our warmest Christmas greetings to all.

MR. ERNESTO B. PANTANGCO
Chairman
Security, Safety & Traffic Committee
