MWCI Old Pipe Replacement Project II

GOOD NEWS to our Pomelo Street residents!

In line with the water service improvements of Manila Water Company Inc. (MWCI), and in consideration with Dasmarinas Village Association Inc. (DVAI), ageing pipelines within the Village will be replaced to help increase water pressure and ensure that Dasmarinas Village residents enjoy potable water that is distributed through a more efficient network free from leaks.

Phase II of this project, which includes Pomelo Street, was implemented in January of this year starting with the streets along Banyan, Bougainvillea, Morado, Amorsolo and portions of Acacia, Paraiso and Palm Avenue.

The pipe replacement along Pomelo will start on Friday, June 2, 2006. MWCI assured us that there will be no disruption of water service while this project is being undertaken. Necessary precaution and steps will be undertaken to ensure the safety of the residents.

Please bear with us for the little inconvenience.
