Tel. No.: 8173316; Email: dasma.association@yahoo.com

D.V.A. Circular No. 2012 – 34

September 13, 2012

Dear Residents:

In response to the numerous complaints that the Management of Globe have received from their cellphone subscribers in the Village regarding dead spots, poor signal and bad reception resulting to drop calls and delayed text messages among others. To address the issue Globe is set to install its facilities and making it available for the benefit of its valued subscribers.

Mindful of the health-related issues often associated with radiation emitted by the antennas, a representative from the Department of Health will conduct a Radiation Frequency measurement on September 22, 2012 at 10:00 AM. This will be conducted at Campanilla Street across the Clubhouse.

In lieu of this, we are inviting your presence to witness this activity wherein discussion with the concerned parties will also be held after the measurement to address the health concerns of the residents of Dasmarinas Village.

Hope to see your presence in this activity.

Thank you.
