VEHICLES PARKED ALONG VILLAGE STREETS

Dear Residents/Homeowners:

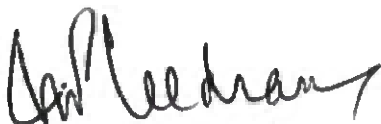

The DVA Board of Governors is committed to enhancing the image of DASMA as a premiere Village in our country and promoting the general welfare of our residents/homeowners.

It is with this regard that the Board wishes to come up with a policy that will hopefully rationalize the parking of vehicles along Village streets in view of the following observations which have been the subject of complaints from residents:

- Streets that are supposed to be two-way are reduced to one-way due to vehicles parked on both sides of said streets,
- Some residents parked their vehicles along the street fronting their house rather than inside their garage; others park in front of another resident's house,
- Streets are used as permanent parking for cars, vans, golf carts, speed boats, and company vehicles, etc.

We are presently collating data on the number and type of vehicle regularly parked along our streets. For the meantime, we would like to solicit comments/feedbacks from our residents on this matter which you may send to the DVA office addressed to the Board of Governors or thru email address dasma.association@yahoo.com or fax no.. 810-2795.

Thank you.

BACKIE P. CELDRAN
President
