September 17, 2015

LOWER-THAN-NORMAL WATER PRESSURE

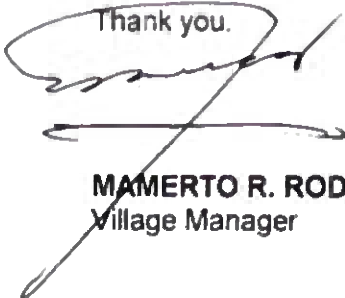

Dear Residents:

Due to the strong and mature El Niño that our country is currently experiencing and which is expected to last until the second quarter of 2016, Manila Water Company Inc. (MWCI) informed us about the need to regulate water supply to ensure that this vital resource will remain sufficient until the early part of next year.

While MWCI strives to provide continuous water service to all its customers, our Village will experience lower-than-normal water pressure from 10:00 PM to 5:00 AM daily starting Monday, September 21, 2015.

We enjoin our residents to help conserve water by educating and instructing our household members/staff in the responsible use of water.

Thank you.

MAMERTO R. RODRIGUEZ
Village Manager
