**SQUIRRELS/RATS IN
DASMARIÑAS VILLAGE**

Dear Residents:

Please be informed that based on the specimen submitted to the Dept. of Environment & Natural Resources (DENR) the squirrels in Dasmarinas Village were identified as Finlayson's squirrels or variable squirrels. Finlayson's squirrels are an invasive alien species and the public is advised to report to the DENR the presence of these squirrels in their area.

Affected communities are urged to organize with the DENR and their respective LGUs in turning over these squirrels to them. With instructions from the DVA Board, we will be providing each household with squirrel traps and enjoin our residents to help us in the collection of these squirrels. You may call tel. no. 843-2262 loc. 125 for any inquiry. You may also use these traps in catching rats roaming inside your premises.

Thank you for your cooperation.

MAMERTO R. RODRIGUEZ
Village Manager
