D.V.A. Circular No. 2019 - 14

June 19, 2019

WATER SERVICE INTERRUPTIONS

Dear Residents:

We reprint hereunder the circular letter from Manila Water Company Inc. (MWCI) dated June 19, 2019:

"Despite the rains we have been experiencing these past days, the water level at **Angat and Ipo Dams** continue to decline, affecting water availability and our ability to refill our reservoirs. Since the National Water Resources Board announced that they will reduce allocation for the water concessionaires once water in Angat Dam breaches the critical level of 160 meters, Manila Water will then begin to implement a new scheme of rotational water service interruptions for the entire East Zone.

**MWCI WATER INTERRUPTION SCHEDULE: 4:00pm to 2:00am every day
until Further Notice**

We expect the supply availability situation to improve once sufficient rainfall begins to refill the dams. We will continue to provide regular updates regarding water supply outlook for the East Zone. Hoping for your usual support and cooperation."

In this regard, we enjoin everyone to help conserve water by educating and instructing our household members/staff in the responsible use of water like refraining from using hose with running water when cleaning your vehicles and instead use water in pail. We also encourage our residents to install or put up water tanks (2 meters in height) in their homes.

Likewise, we would like to inform you that we are pushing MWCI to fast track the rehabilitation of the five (5) DVA deepwells and they committed to energize them as soon as possible.

Thank you.

DVA MANAGEMENT
